#### FREELANCE FRONT-END DEVELOPER

2022 - 2024

Designed and built responsive and user-friendly experiences user interfaces for various web applications and websites including ecommerce website, auditing system and management system.

### PROJECTS

#### • Web-based On-The-Job-Training Mapping System

This CVSU portal manages student locations and also serves as an online platform where students can submit their requirements.

#### • E-commerce: Coffee shop

To showcase my skills in HTML, CSS, and JavaScript, I created a online coffee shop. This project demonstrates my ability to develop a functional and visually appealing e-commerce website, replicating the key features and design elements of the online coffee shop platform.
